Illness Course / Treatment Information

A large, empty, light beige rectangular area intended for the patient's illness course and treatment information.

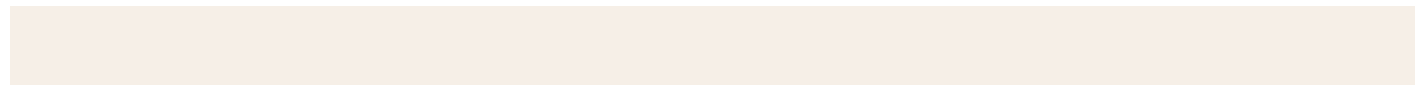

Physical Exam

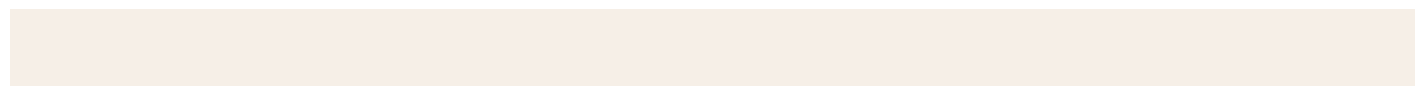

Medications / Treatments

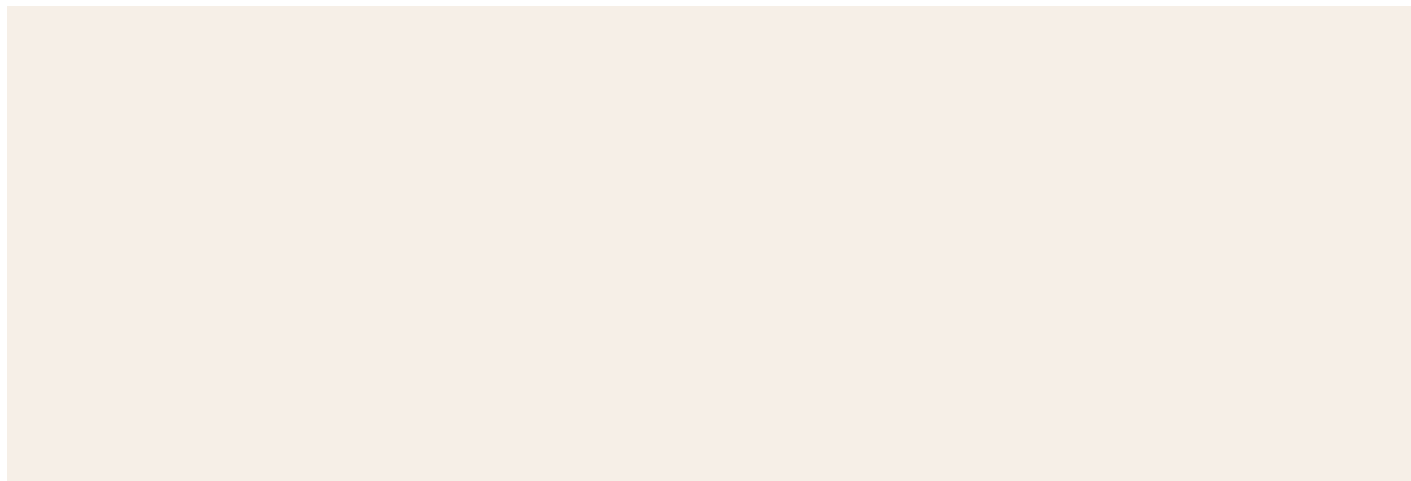

Allergies / Intolerances

Tobacco, Alcohol, or Substance Abuse

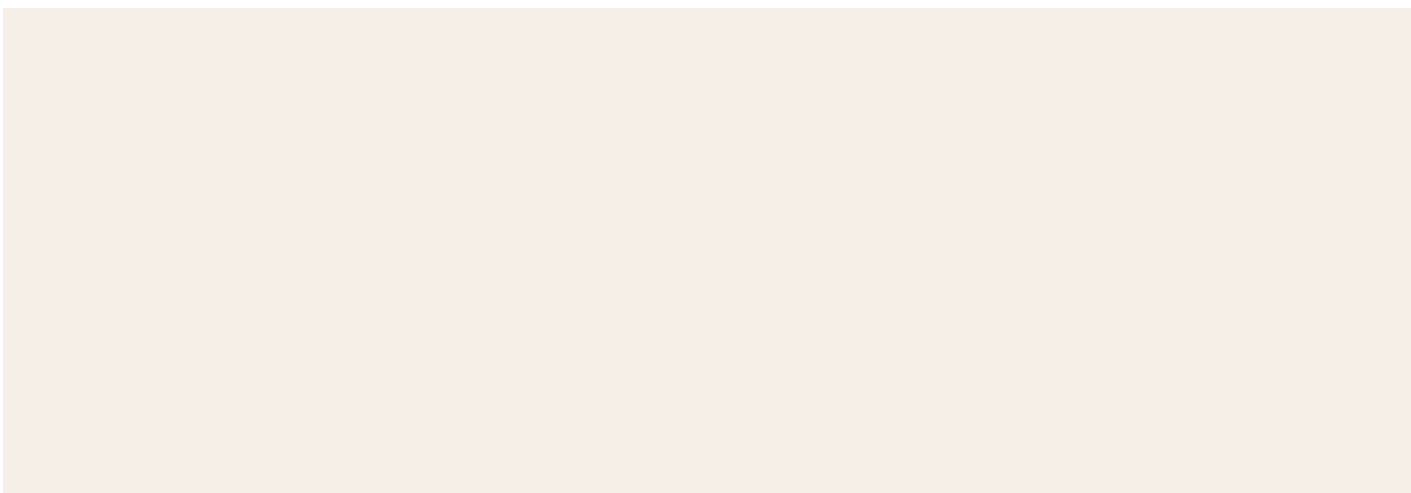

Review of Systems

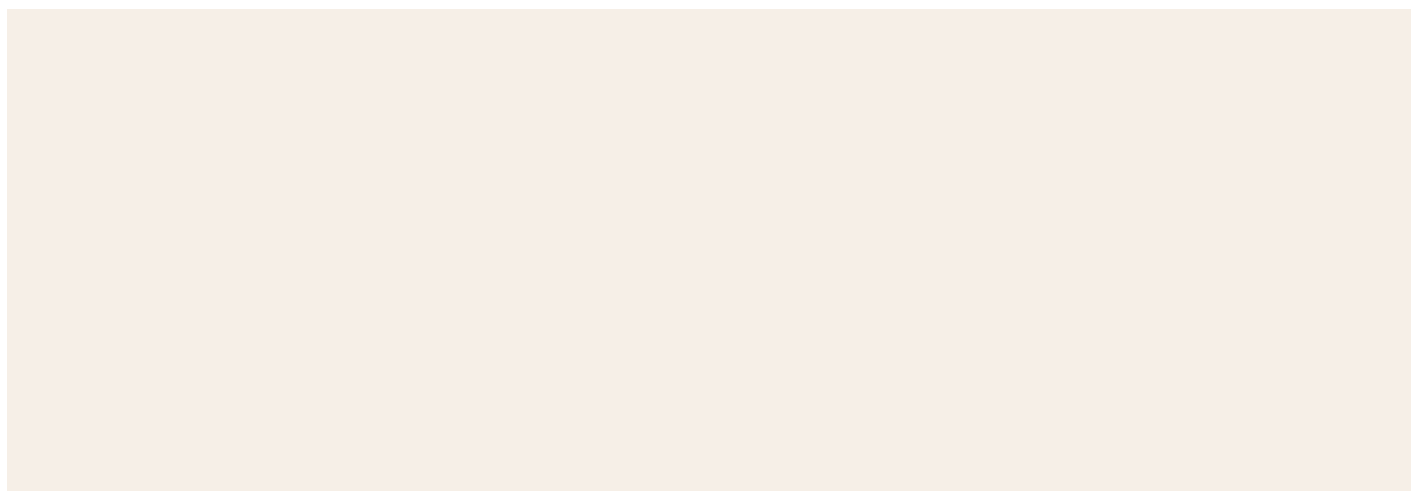

Include mobility, cognition, mood; do they need assistive devices? Does living environment impact mobility?

Past Medical History

Include alternative medicine preferences; cultural perspectives

Family History

Health & Community Services

Is the Patient Currently Receiving or Will They Need Any New Home and/or Community-Based Services?

Healthcare Services:

Eligibility / Enrollment / Contact Information

Community Services:

Eligibility / Enrollment / Contact Information

Overall Assessment

Advance Care Planning

Please provide details/scenario about serious illness or end-of-life conversations with the patient, family and/or providers; and indicate if the patient has any Advance Directives on file

What Matters Most to the Patient Now?

What Do They Want Their Health For?

**What
matters
most?**

Next Steps / Outcomes

What Happens Next?

Details About Family Conversations

What Happens at, or Near, Death of Patient?

What Support Does Family Need Before and After Death of Patient?

Challenging Conversations

Best / Worst Case

Risk / Benefit of Intervention

Interprofessional Focus

What Role Do Other Disciplines Play in This Patient's End-of-Life Care?

Who Can Help You Provide the Best Care and Honor the Patient's Wishes?

How Will You Approach Utilizing a Team Approach to Providing Care?

Beyond Referrals, How Will You Become Comfortable with Going Outside Your Comfort Zone?

Are there any Integrative, Traditional, or Complementary Therapies that will Help the Patient at this Stage or Later?

Questions to Consider

Can You Identify Any Overarching Bias?

Can You Identify Any Possible Assumptions One Might Make About This Patient?

What Information About This Patient Might Inform Public Policy or Regulatory Action?

ADVANCE CARE DIRECTIVE

Teaching point: Each health science student should be

- knowledgeable about advance care directives; and
- be able to communicate and engage patients/families in advance care planning across settings and across the lifespan.

PALLIATIVE CARE AND HOSPICE

Teaching point: Each health science student should be

- knowledgeable about palliative care and hospice and
- be able to effectively communicate this information to patients/families.

CULTURAL HUMILITY

Teaching point: Each health science student should be

- knowledgeable about knowledgeable about cultural considerations in the care of patients and families, and
- be able to effectively communicate with humility, curiosity, care, respect, & dignity.

COMMUNITY RESOURCES

Teaching point: Each health science student should be

- knowledgeable about community resources to support serious illness and end of life care, and
- be able to effectively connect patients/families with these resources.

CHALLENGING CONVERSATIONS

Teaching point: Each health science student should be

- knowledgeable about how to deliver “best case/worse case” and
- be able to effectively conduct challenging conversations with patients/families (including how to discuss risk/benefits of interventions).

INTERPROFESSIONAL CARE

Teaching point: Each health science student should be

- knowledgeable about the role of team members & benefits of team-based care and
- be able to effectively work with team members in the care of patients/families with serious illness or at the end of life.
